Harlem Go V4
 The high-performance all-rounder

The Harlem is your go-to kite, it jumps, slides, rides, flies, goes upwind easy and loops smoothly. This awesome kite will give you the confidence to explore new tricks! We designed the Harlem to turn fast without an aggressive pull, this makes the kite perfect for nailing jumps, charging the next big swell and everything you want in between.

When trying out your new moves, the Harlems predictable power delivery and direct bar feel offer you control at all times. The medium aspect ratio supports substantial low-end power and great upwind performance. This means you can go where other people can't.

Our lighter three strut design gives you the freedom to surf & play. The Harlem is our first choice for hooked freestyle tricks, wave riding and freeride sessions. Find out why people call it "the smooth operator".
