

# Mondzorg Gratis behandeling

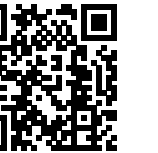

Locatie **Utrecht, Utrecht**  
<https://www.advertentiax.nl/x-1233544-z>

Wilt u een gratis mondzorg behandeling? Meld u zich maar aan!

Tijdens de behandeling, krijgt u een gebitsreiniging en kunnen er gaatjes geboord en gevuld worden.  
 De hele behandeling is kosteloos.  
 De behandeling wordt uitgevoerd door studenten van Mondzorgkunde onder toezicht van tandartsen.  
 Het enige wat van belang is, is dat u ingeschreven staat bij een tandarts!  
 Stuur mij een bericht voor verdere!

|                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                      |
