VASTE PRIJS!

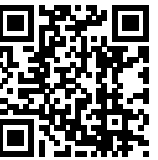

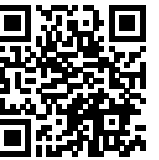

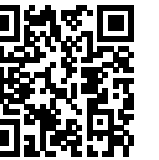

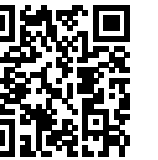

De HTC One A9 is voorzien van een 5 inch Full HD AMOLED beeldscherm en draait op Android 6.0 Marshmallow. De Qualcomm octa-core processor zorgt voor krachtige prestaties en razendsnel streamen. Mocht het geheugen van 16 GB te klein voor je zijn, je kunt het geheugen eenvoudig uitbreiden met een Micro SD kaart van maximaal 2 TB. Ook is het mogelijk om je bestanden op te slaan op Google Drive (2 jaar gratis 100 GB). De HTC One A9 heeft gepolijste zijanten die het toestel extra diepte geven. De aaneensluiting van aluminium en glas, een 5-inch, edge-to-edge, 2.5D Corning Gorilla Glass, Full HD AMOLED scherm vloeien naadloos samen.

### Camera

De 13 megapixel camera beschikt over Optical Image Stabilization (OIS) dat automatische bewegingen en trillingen minimaliseert om beeld vlijmscherp vast te kunnen leggen. Intussen zorgt de 4 UltraPixel front camera voor de beste selfies onder alle lichtomstandigheden.

### Subliem geluid

De HTC One A9 levert een geweldige geluidskwaliteit dankzij HTC BoomSound en Dolby Audio Surround-technologie. Dit is high-res audio op een hoger niveau. De ingebouwde 24bit/192KHz DAC biedt audio die de kwaliteit van een cd overstijgt.

|                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |

---

#### Beeldscherm

- 5 inch Full HD AMOLED beeldscherm
- Resolutie 1080 x 1920 pixels
- Gorilla Glass

#### Netwerk

- 4G

#### Batterij

- Capaciteit 2150 mAh

#### Sensoren

- Tri-Axis accelerometer
- Digitaal kompas
- Omgevingslicht sensor
- Proximity sensor
- Gyro sensor
- Vingerafdrukscanner

#### Geheugen

- 2 GB werkgeheugen
- 16 GB geheugen
- Geheugen uit te breiden met Micro SD van maximaal 2 TB
- Cloud opslag: 2 jaar gratis 100 GB Google Drive

#### Connectiviteit

- Wi-Fi 802.11 a/b/g/n/ac
- Bluetooth 4.1
- DLNA
- HTC BoomSound Connect
- FM Radio
- NFC
- MHL 3.0

#### Netwerk

- 4G

#### Camera

- 13 megapixel camera

- 
- Extra's: autofocus, BSI OIS & f/2.0 lens, 28 mm, HDR, Burst modus, 1080p Full HD video-opname
  - 4 UltraPixel front camera
  - Extra's: f/2.0 lens, 24.7 mm, 1080p Full HD video-opname, autofocus met zoom functie
