Stylish and comfortable, this Skoda Kodiaq is designed to keep you safe and comfortable in all conditions. In this car you will find a petrol engine and an automatic transmission. The heated front seats are a blessing for the back and shoulders. This is a real versatile car. For example, take a look at the handy third row of seats, which you can pull out with a simple action. Furthermore, the Skoda is equipped with: 18-inch alloy wheels, virtual cockpit, full LED lighting, roof railing, extra tinted glass, metallic paint, electrically folding door mirrors, high beam assistant and adjustable rear seat.

The built-in DAB receiver ensures interference-free radio reception. The built-in voice control allows you to control the main vehicle systems with voice commands. You always know where to go, thanks to the with navigation package. The hassle with cables and plugs in the cigarette lighter is over. The electronic climate control ensures a pleasant temperature under all circumstances. Reversing comfortably and safely is easier than ever with the help of the reversing camera. Of course, a complete car like this is also equipped with sensors that monitor the environment. This Skoda does not only have an automatically switchable lighting. In addition, there is a rain sensor on board, but also an adaptive cruise control.

The intelligent safety systems in this car continuously monitor your safety. In an emergency, the forward collision warning warns of an imminent collision with a vehicle in front. With features such as frontal impact protection and front and rear sensors, you are always safe on the road.

We do our best to describe this car for you, but you will experience it best when it is in front of you.
