Dear all,

Due to an update I am selling my OnePlus 6T Midnight black 8GB ram and 128GB ROM, carrier free purchased exactly 3 years ago (I have also attached the receipt). The phone is maintained in great condition, no significant scratches or broken glass, only minor everyday use marks, everything functional and still running smooth.

Even though it was used with a case all the time, the aluminum body has small marks. The battery is strong, it can last one day with ease. Software version, the latest android 11 with Oxygen 11.0.1. PM me for more info.

Pick-up in Enschede or I can also send via postNL but the cost will be supported by the
