What makes the FIREBALL OVERDRIVE 1X superior to the rest is its patented ball and socket connection. This ergonomic ball and socket connection factor makes the system easy to operate, and is integrated seamlessly into the design.

The 1X security line is well hidden alongside the depower main line in a protective PU covered tube. The award winning FIREBALL connection has gained international praise for its innovative, approach to a purpose built kitesurfer connection. The FIREBALL 1X is perfect for any rider who rides predominantly connected.
