

# Rockford Fosgate P300-1 Versterker Monoblock (120 EUR)

Locatie **Flevoland, Almere**  
<https://www.advertentieX.nl/x-1265406-z>

Number of Channels 1  
 Rated Power  
 (RMS Continuous Power) 150 Watts x 1 @ 4-Ohm  
 300 Watts x 1 @ 2-Ohm  
 Total Power  
 (Sum of Rated Power) 300 Watts RMS  
 Dynamic Power  
 (PVC/PowerCube® Measurement) 240 Watts x 1 @ 4-Ohms 0° Res  
 404 Watts x 1 @ 2-Ohms 0° Res  
 Bridgeable No  
 Efficiency (average) 69% @ 4-Ohm  
 65% @ 2-Ohm  
 Crossover Controls High-Pass (HP): 50Hz-500Hz 12dB/octave Butterworth  
 Low-Pass (LP): 50-500Hz 12dB/octave Butterworth  
 Tone Controls Punch EQ2 Bass: 0dB to +18dB @ 45Hz and/or  
 Punch EQ2 Treble: 0dB to +12dB @ 12kHz  
 Function depends upon LP/AP/HP switch position  
 Signal Input Low level: 1 RCA pair  
 Signal Output n/a  
 Power Input Connector Block

Power Wire Gauge 4 AWG  
 Input Connector Low terminal (mono) strip  
 Output Wire Gauge 18 AWG  
 Type C  
 Remote Controls Optional PEQ Remote Punch EQ  
 Overrides built-in (Punch EQ2)  
 Visual Indicators Power  
 Thermal Protect  
 Circuit Topology Class AB  
 Frequency Response 20Hz to 20kHz +1.0dB

|                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                    |
