

## ECOTEL GSMGateway ISDN2 TCTCSY gsm gateway sms Dual sim (120 EUR)

Locatie **Noord-Holland, Amsterdam**  
<https://www.advertentiax.nl/x-1270097-z>

Ecotel ISDN2 TC / TC / SY is een apparaat dat het interne telefoonnetwerk, analoog of ISDN rechtstreeks verbindt met het mobiele netwerk. Bellers van het GSM-netwerk hebben dezelfde toegang tot interne lijnen als die van een vaste operator. Hierdoor heeft u toegang tot veel voordeligere tarieven voor het bellen naar mobiele netwerken, zeker wanneer u gebruik maakt van de verbindingen die worden aangeboden door mobiele operators binnen businessgroepen (VPN - Virtual Private Network).

ECOTEL ISDN:

Heeft twee hoogwaardige Siemens TC 35 celmodules

(Dual Band - 900 en 1800 MHz),

kan worden aangesloten als BRI / BRA NT - Euro ISDN S 0 of interne lijn BRI / BRA TE - Euro ISDN S 0 ,

heeft gesproken aankondigingen,

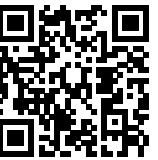

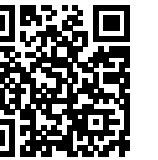

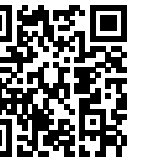

genereert informatie over de vergoeding (AOC),

maakt volledige volumeregeling mogelijk

maakt het bellen naar geregistreerde nummers mogelijk

maakt gegevens- en faxverzending mogelijk (via een computer) met een snelheid

tot 9600 bps

|                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                |
