The Doral 185 BR OB is the top-of-the-line outboard bowrider. The hull and deck manual lay-up construction is a Doral distinction. The 185 BR O-B features 34-oz. marine vinyl as well as plush marine grade carpeting. A sunbrella color-match bimini top is standard. DORAL BOWRIDERS: Dora's Bowrider

runabouts have expansive cockpits. They provide the space needed for a day on the water, with storage for picnic gear, watersports equipment or anything you might need for an afternoon cruise. DORAL FEATURES: DORAL carefully maintains and prepares all molds. The first layer of high-quality gelcoat is sprayed on clean and even. Its porcelain shine starts at this stage, and Doral's finishing department makes sure the boats are delivered that way. The gelcoat is followed by progressive layers of vinylester resins, and blister-resistant surface matting, for true fair surface, with bi-directional woven roving providing strength and substance. Molded parts ranging from shower stalls to radar arches, as well as storage compartments, help DORAL create a seamless finish. The ease of maintenance and the re-sale value is kept in mind when building new models.
