

Sr. Maintenance Technician Mechanical

Locatie **Zeeland, Terneuzen**
<https://www.advertentiax.nl/x-1278399-z>

For our client in the South/West of the Netherlands we are looking for a Sr. Maintenance Technician Mechanical

Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

Provides maintenance subject matter expertise on plant issues that impact production over a short period of time. In this role the technologist provides technical expertise which may be equipment-based or repair technique-based which impacts the availability and maintainability of the system and/or equipment.

Funcitie-eisen

Provides experience on failures and repair techniques during root cause investigations. Provides technical expertise to plant personnel on troubleshooting failures, repairs, and evaluating whether equipment is designed to meet its intended or existing service conditions. During repairs ensure that repair details such

as clearances, tolerances, materials of construction, welding procedures, etc are provided and documented. Provide technical support to plant personnel. Ensure that repair techniques and procedures are specific to the equipment and are made available to the plant. Provide technical support for specific equipment. Identify and purchase required parts. Provide maintenance support. As appropriate, review and update parts list for existing equipment and works with the plant computer system to ensure parts are identified, added and stocked. Develops maintenance procedures. Enters quality complaints into the plant computer system. Participates in developing the maintenance budget and support the maintenance strategy. Serves as a technical resource to the planner on work packages. During development of turnaround work, provides input on scope of work. Supports Maintenance Procedures. Performs technical reviews of procedures. Serves as a technical resource during procedure creation and review. Supports development of the Procedure Exemption List. Create/develop/change/updates job procedures and checklists, and initiates procedure.
