

## 4-Family 480 deLuxe (7.750 EUR)

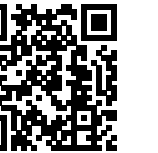

Locatie **Zuid-Holland, s-Gravenzande**  
<https://www.advertentiax.nl/x-1284779-z>

Type: Motorsloep  
 Diepgang: 0,40 m  
 Afmetingen (LxB): 480 x 193 cm  
 Ligplaats: 's-Gravenzande

De 4-Family 480 de Luxe is samen met de 4-Family 485 de Luxe de kleinste sloep uit de Unique lijn.

Doordat hij bijna 2 meter breed is heeft hij zeer goede vaareigenschappen.

De 4-Family 480 wordt standaard al heel compleet geleverd voor een scherpe prijs.

|                                                                                                                                                                                                                    |                                                                                                                                                                                                                     |                                                                                                                                                                                                                     |                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                       |                                                                                                                                                                                                                       |                                                                                                                                                                                                                       |                                                                                                                                                                                                                       |                                                                                                                                                                                                                       |
