

Project Manager Benelux

Locatie **Zeeland, Terneuzen**
<https://www.advertentieX.nl/x-1285371-z>

For one of our International Clients we're looking for a Project Manager (M/V)

Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

Project management of small-scale and large-scale projects – with focus on combustion, environment or energy technologies. Coordinate external and internal resources, third parties/vendors for the execution of the project. Ensure that all projects are delivered on-time, within scope and within budget. Assist in the definition of project scope and objectives, involving all relevant stakeholders and ensuring Technical feasibility. Ensure resource availability and allocation. Develop a detailed project plan to monitor and track progress. Manage changes to the project scope, project schedule and project costs using appropriate verification techniques. Measure project performance using appropriate tools and techniques. Report and escalate to management as needed. Manage the relationship with the client and all project partners. Perform risk management to minimize project risks. Establish and maintain relationships with third parties/vendors. Create and maintain comprehensive project documentation. Meet with clients to take

detailed ordering briefs and clarify specific requirements of each project. Delegate project tasks to project team members. Individualize skill sets and experience level for each project. Monitor, specify and coordinate successful completion of short- and long-term tasks. Manage budgets, activities and deliverables to project completion. Conduct financial analysis of project. Prepare comprehensive project reports for management and clients. Develop other stakeholders. Use and develop leadership skills. Conduct conferences and training as required to maintain proficiency. Perform other related duties as assigned.

Functie-eisen

Background in Process-, Chemical- or Mechanical Engineering. Proven working experience in project management. Strong commitment to troubleshooting and hands-on-mentality. Excellent client-facing and
