This Peugeot 508 (station wagon) was admitted on 06-01-2014. The APK is valid until 09-04-2022, well-maintained from 2014 auto diesel.

And of course it's a nice car with large enough space for a family, also a excellent car if you are a travel lover you will know it :)

In short very nice spacious family car with some small scratch under left headlamp and of course it's no longer a new car but is in good condition.

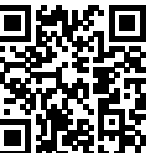

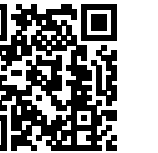

Reason to sale: Back to home country end of Feb., so hope to find a nice owner for it then.
