

3 Migrolight Migro 100 Kweeklampen (200 EUR)

Locatie **Noord-Holland, Amsterdam**
<https://www.advertentieX.nl/x-1298078-z>

3 lampen te koop, liefst alle 3 in 1 koop.
 1 lamp €75 Alle 3 voor €200,-

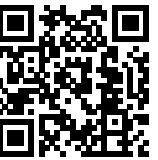

Ideale lampen om peper, microgreens etc mee op te kweken

Lampen zijn gebruikt, maar netjes mee om gegaan en werken nog prima. Stevig design en passieve koeling door de "ribben" in het ontwerp. De lampen zijn te dimmen op de driver zodat de intensiteit van het licht zelf naar behoefte te regelen is.

The MIGRO 100 is a single grow light with a single driver and a 2.5M long cable. It is perfect for a closet grow, cabinet grow or grow box. Great to use as a module to maximise a larger growing area. Modular and flexible for any space Each grow light covers up to 60cm x 60cm or 2 ft x 2 ft for Flowering. You can use just one 100W lamp for a small grow or arrange them in arrays to maximise any grow space. Very slim profile and wide angle lense makes it a great grow light for low spaces such as closets, lofts or basements. Class leading efficiency and cool running

MIGRO is 300% more efficient than a CFL.

MIGRO is 50% more efficient than a single ended HPS system and is best in class for home growers.

Great choice for healthy growth
 Full spectrum output is a must for plants to the final harvest. A complete light to use and ideal for inspecting the health of your plants.

Full spectrum for dense, healthy growth from veg to flower
 Even coverage with the best uniformity and no hot spots
 90 degree borosilicate glass lense with diffuser for maximum penetrations

Safety Features MIGRO is a fully sealed light fixture and is entirely safe to use in a wet area. The electrical safety controls and low surface temperature ensure MIGRO is the safest grow light on the market.

Low operating voltage in grow room: <51v DC

Ingress protection rating: IP67 (wet area rated)

Max surface temperature: 50°C (HPS is +40°C CFL 110°C)

LED driver: Over current protection

LED driver: Over temperature protection

LED driver: Over voltage protection

LED driver: Short circuit protection

No fans: No mechanical failure

Specifications

Operating voltage: 90V to 305V AC & 47 to 63Hz frequency

Power factor: 96%

Dimming: 10 -100% PWM

Plug: UK, US or Euro plug options

LED components: Luminus, Lumiled or Bridgelux LED's

Optics: 90 Degree Diffused Borosilicate glass lens

Cooling: Passive (no fans)

Lamp dimensions: W 200mm x H 170mm x D 160mm

Hanging frame: Not applicable

Weight: 2.3Kg Lamp + 0.9Kg Driver

Operating temperature: 0 – 35 °C

Coverage

Flowering coverage: up to 60cm x 60cm (2ft x 2ft)

Vegging coverage: up to 90cm x 90cm (3ft x 3ft)

Power consumed: 107watts

Total PPF: 239 μ mols/sec

Efficiency PPF/Watt: 2.2 μ mols/watt

Spectrum: Full spectrum (veg to flower)

Lifetime: 50,000 hours (8.5 years @ 16hour)
