IVETRA-TUNING

Trekhaakslot Bestelwagen

Dit trekhaakslot blokkeert het openen van de achterdeuren van uw bestelwagen.  
 Het slot kan op elke trekhaakkogel worden bevestigd. (Universeel)  
 Het slot is makkelijk te plaatsen door het hefboomsysteem.  
 Met de eenvoudige opstap die voorzien is van een antislip coating kunt u makkelijk bij de goederen (bijvoorbeeld een ladder) die op dak zijn gelegd.

Wordt geleverd met discushangslot.  
 Frame is gemaakt van een gepoedercoate stalen buis.

|                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |
