

# GARMIN ECHOMAP UHD 92SV (700 EUR)

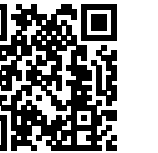

Locatie **Noord-Holland, Amsterdam**  
<https://www.advertentiax.nl/x-1304327-z>

Garmin echomap hhd 92sv scherm.  
 Werkt perfect ideaal voor de lifescope om mee te beginnen.  
 Zonder tranducer

## Beschrijving

De Garmin Echomap UHD 92sv helpt je om meer te vissen en minder zoeken. De in zonlicht leesbare kaartplotter met 9" touchscreen is voorzien van een beugelsteun met snelontgrendeling. Deze kaartplotter ondersteunt diverse Garmin transducers, inclusief het Panoptix Livescope™ scanningsonarsysteem. Dankzij de levendige scanning-sonar kleurenpaletten met hoog contrast is het eenvoudiger dan ooit om doelen en structuren te onderscheiden. Beheer je water(sport) ervaring vanaf bijna elke locatie met de ActiveCaptain® app. Verbind je boot om gegevens, sonar en kaarten te delen met andere compatibele toestellen. Maak op het scherm persoonlijke viskaarten met een omtrek van 0,3 meter. Bewaar de gegevens voor eigen gebruik of deel ze met de Garmin QuickDraw™ gemeenschap op de Garmin Connect™

|                                                                                                                                                                                                                         |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |                                                                                                                                                                                                                           |                                                                                                                                                                                                                            |                                                                                                                                                                                                                            |                                                                                                                                                                                                                            |                                                                                                                                                                                                                            |                                                                                                                                                                                                                            |
