Selling my 32 4K Designer Monitor - Please read carefully.

The monitor is 1yr old, it's in perfect conditions. Sits on my home work-desk. I'm selling it because I have a new one. Works perfectly fine. It's picked up only on Amsterdam Oud-West (sorry, but I can't send it via mail) IDEAL payments only, no cash. You pay when you pick up the monitor. This way is secure for both. If you want real pictures, send me a message.

Included as standard with the BenQ PD3220U 32 Inch 4K Monitor:

BenQ PD3220U 32 Inch 4K Monitor
 power cable
 Short manual
 Hotkey Puck
 I don't have the original box or packaging.

About the monitor (I took this description from the Kamera Express website)

BenQ PD3220U 32 Inch 4K Monitor
 The BenQ PD3220U 32" is a 4K UHD monitor with an unprecedented color experience for graphic designers and other designers. The monitor features 100% sRGB color spectrum, Rec.709 and up to 95% coverage of DCI-P3.

HDR 10

The HDR10 technology shows you the best HDR images, even while editing videos or digital renders. This will give you a better idea of ??the result your work will yield.

Darkroom Mode

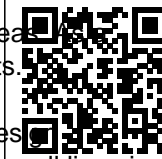

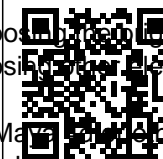

With Darkroom Mode, the monitor adjusts the brightness and contrast, so that you can still see the small details in a very dark room. This is ideal for dark workspaces for video editing, for example.

Animation Mode

The Animation Mode adjusts the brightness in dark areas, while the Darkroom Mode adjusts the brightness in light areas. This way you can see the details in your work without losing the elements.

The monitor is compatible with professional software such as Photoshop, Adobe Illustrator, Maya, and other design software. Enable CAD/CAM Mode. This increases the contrast in your work screen, so that small lines in a grid pattern stand out better against the dark background. This way you can see all shapes well and you can work better and faster.

Hotkey Puck G2
 This BenQ monitor comes with a Hotkey Puck G2. Link various options - such as brightness, volume, contrast and more - to the hotkeys to quickly adjust them. No more cumbersome menus to click through. Maintain your workflow with this Hotkey Puck G2.
