

Rotating Expert

Locatie **Noord-Holland, Amsterdam**
<https://www.advertentiax.nl/x-1326396-z>

For one of our customers we are in search for a Rotating Expert.

Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

The Rotating specialist is accountable to ensure a high level of reliability/availability of critical rotating equipment in compliance with the refinery objectives, HSEQ, costs, regulations and standards.

He/she reports to the Team Leader Rotating Cell and is responsible for developing and implementing the maintenance strategy of critical (availability) rotating equipment (major pumps, compressors, turbines in essence). Part of the responsibilities are spare part policy, monitoring requests and providing technical expertise in revamps and capital projects for such equipment.

The job holder will challenge and optimize Maintenance works and will define QA/QC requirements during execution of Maintenance activities as well as revamp and capital project activities.
