Renault twingo with good engine, drive very well but... there is a few "but". A few important details to know.

- The locks have been forced, so there are hanging.
- The bodywork of the car is a bit old (Paint, gums around windows, ect...)
- The electronic part is defective, which means every time that you want to use the car you have to enter manually a code to deactivate the anti-robbery system. So you need 3 minutes to start your car. After that the car works perfectly and can bring you everywhere you like.

It can be fixed by a garage Renault but i don't have time for that. I'm moving back to France in one month. So i decided to put it online, if someone like to use it that way, or take the time to fix it.

Taxes and insurance are cheap, so no big costs over the year.
