Omschrijving

De fabrikant; Li-Shin onderdeel van LITE-On electronics levert al 45 jaar krachtige A-klasse / A-merk adapter en voedingen aan onder andere diverse fabrikanten van computers en elektronische-communicatie apparatuur. Deze krachtige A-merk adapter levert 120W vermogen en is geschikt voor diverse notebooks en laptops van Medion Lenovo Ideapad Acer, MSI, Fujitsu Siemens, Asus en andere modellen. Lite-On electronics opgericht in 1975 Taiwan is 1 van de oudste marktleiders van stroomvoorzienings-apparatuur Het is een van de grootste producenten ter wereld van onder andere AC DC Adapters, inverters, converters en andere power en voeding gerelateerde producten voor Notebooks, Laptops Mini PC, LCD monitoren en TV, PDA en netwerk producten.

Deze zwaardere adapter is geschikt voor notebooks en laptops die intensief worden gebruikt voor werk, multimedia en Gaming. De adapter met 120W maximaal vermogen, universeel 20-Volt 6000mA / 19.5V compatibel is zeer geschikt om lichtere adapters te vervangen; 60W tot 90W. Dit extra vermogen, stroomsterkte en belastbaarheid komt de levensduur van de adapter zeker te goede. De adapter hoeft namelijk niet hard te werken om het vermogen te behalen. Een adapter met een lager vermogen en een lagere ampere / stroomsterkte waarde (3.42 mAh / 4.74 mAh) of een oude adapter zullen functioneren met Uw laptop / notebook systeem, maar de adapter moet extra hard werken voor het vermogen. Dit werken voor het vermogen zal minder efficiënt gaan en de adapter zal veel warmte afgeven en dit gaat ten koste van het energieverbruik en de levensduur van de adapter.
