75hz Gaming Monitor

Used for 4 years. Still works fine, but small artifacts can happen (like a vertical red line with 1 px width).

INCLUDED:

- The monitor screen itself

NOT INCLUDED:

- HDMI cable (you need a HDMI cable)
- Power cable (you need a generic power cable)
- Stand (you need a VESA mount)

The original stand was lost so the only option is to use a 10x10 VESA mount (which is even better in my opinion)
