I have bought this monitor brand new in October 2021. All of the packaging and boxes are in the same condition since the day that I have got the monitor. The reason why I am selling it is because I no longer have time to play video games and would like to upgrade to a 4K 60Hz monitor instead.

The monitor has served me very well for the past year and I have no complaints about it. The monitor stand is in brand new condition since I had the monitor mounted on my own monitor arm. There are no scratches on the screen. As accessories, it includes the power cable and an HDMI cable. There is also a plastic cable hider for the monitor. The specifications of the monitor are as follows.
