This router has a dual core 800 mhz cpu capable of encryption traffic over an IPSEC or OpenVPN tunnel. It also features 2 WAN ports for redundancy (one for kpn and one for ziggo) as an example. All ports are gigabit Ethernet and this router also features the routing information protocol (RIP) which allows it to share its routing table with neighboring devices for easier networking. Another notable feature is link layer discovery protocol (LLDP). Perfect for a home office or small
