

Kayak (900 EUR)

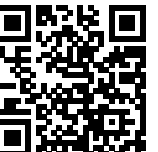

Locatie **Noord-Holland, Amsterdam**
<https://www.advertentieX.nl/x-1381868-z>

Length: 272 cm
Width: 67 cm
Volume: 350 L
Cockpit: 91 x 50 cm
Paddler: 70-100 kg
Weight: 21 kg

Sporty, stable and easy to maneuver, the CROSS has a long, wide rocker profile which has been designed to move easily through waves and holes while BOOFING beautifully at any speed. The planing 'mid' hull section is complimented by a subtle edge shape making the CROSS highly responsive when accelerating or holding a line. Meanwhile, the bow and stern's displacement hull shape allows for the CROSS to easily turn with no 'catchy features'. Altogether, the CROSS is the perfect whitewater companion for any purpose or environment. Designed for paddlers in the range 70 to 100 kg, the CROSS's incredible stability makes it suitable for not only expert kayakers, but also beginners and intermediate paddlers looking to improve their whitewater skills. As always, the new CROSS is created using a superior moulding technology + baking process that guarantees a high quality, high strength plastic shell complete with a well proven outfitting scheme that out lasts all other boats in its class. OUTFITTING ZET's simple yet proven outfitting design remains robust, fully adjustable, and comfortable. The thigh braces have been reshaped for greater comfort. A sturdy, closed-cell foam seat protects you from bigger impacts and provides considerable warmth compared to padded "water sponging" seats.

Both front and rear pillar braces are formed seamlessly with the cockpit rim for added structural rigidity, stability and functionality. The supportive, full length back support is firmly integrated into the hull providing easy access to the rest of the boat. The footrest is adjustable and provides the most standard adjustable bulkhead or foot drilled hull access with a custom adjustable mini-cell that can lock to any of the 12 series bracing positions.
