Boathousing is an experienced manufacturer of vessels and dockers - luxury homes, platforms and marinas. All products in our offer are based on the latest technologies, with durable materials that guarantee safety.

Customer satisfaction is of key importance to us. We always pay close attention to the needs of investors and developers. We analyze each project comprehensively, implementing innovative solutions. We build luxury houses on the water, comprehensively equip the interior and create a space for complete relaxation.

Boathousing, as an experienced company, was responsible for the complete production of houseboat boats.

We design a space that combines functionality, modern design and maximum comfort. We provide professional services - our houseboats are made of the highest quality components by experienced constructors - engineers. We provide assistance at all stages of the order.

Chill 1 is a floating house designed for comfortable rest all year round. It gives the opportunity to spend a pleasant time away from the hustle and bustle of the city and other tourists.
