J9049A HP ProCurve Switch 2900-24G (25 EUR)

Locatie **Noord-Holland, Amsterdam**
https://www.advertentiex.nl/x-1396213-z

The HP ProCurve Switch 2900 Series consists of two switches: the HP ProCurve Switch 2900-24G with 24 10/100/1000 ports and the HP ProCurve Switch 2900-48G with 48 10/100/1000 ports. Both have four dual-personality ports for 10/100/1000 or mini-GBIC connectivity. In addition, by including four integrated 10-Gigabit Ethernet ports (two CX4 and two X2), the 2900 series offers the most flexible and easy-to-deploy stacking and uplinks in its class. Together with static routing, robust security and management features, free lifetime warranty, and free software updates, the 2900 series is a cost-effective, future-proof solution for customers who are building high-performance networks.
Access layer switchEnterprise-class featuresLayer 2 and Layer 3 lite feature setScalable 10/100/1000 connectivityIntegrated 10-GbE uplinksPort mirroring: enables traffic on a port to be simultaneously sent to a network analyzer for monitoringIPv6 host: the switches can be managed and deployed at the edge of IPv6 networksDual stack (IPv4/IPv6): provides transition mechanism from IPv4 to IPv6; supports connectivity for both protocolsPlug-and-Play 10 Gbps Ethernet for stacking and uplink: four integrated 10-GbE ports (two CX4 and two X2) built in on the switchDual-personality functionality: four 10/100/1000 ports or SFP slots for optional fiber connectivity such as Gigabit-SX, -LX, -LH, or 100-FXHigh-performance architecture: 115 Gbps switching fabric with up to 74 million pps (Switch 2900-24G) and 173 Gbps switching fabric with up to 110 million pps (Switch 2900-48G)VLAN support and tagging: supports the IEEE 802.1Q (4,096 VLAN IDs) and 256 VLANs simultaneouslyJumbo frames: on Gigabit and 10-Gigabit ports, allow high-performance remote backup and disaster-recovery servicesStatic IP routing: provides manually configured routing; includes ECMP capabilityRIP: provides RIPv1 and RIPv2 routing at media speedRADIUS/TACACS+: eases switch management security administration by using a password authentication serverTraffic prioritization (IEEE 802.1p): allows real-time traffic classification into eight priority levels mapped to four
