

## Auto alarm en opsporingssysteem GSM tracker WATERPROOF (99 EUR)

Locatie **Flevoland, Almere**  
<https://www.advertentiax.nl/x-139638-z>

Trilalarm, zonealarm, bewegingsalarm. Incl. deksel met sterke magneet.  
 Kan 150 uren standby en 72 uren actief volgen op oplaadbare batterij, maar kan ook aan accu bevestigd worden.  
 Met microfoon om mee te luisteren naar geluiden rondom de tracker.  
 Signaal via GPRS en AGPS.  
 Koppel signaal aan Google maps via smartphone, laptop of PC.  
 - Meer info via email mogelijk.  
 Ook handig om mee te geven aan uw kinderen of ouderen. (of uw hond)  
 Met SOS knop geven zij een noodsignaal en via hoofdtelefoon kunt u met elkaar.

|                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                        |
