Wat Cabrinha over de Mantis te zeggen heeft:

The original Mantis set a benchmark with regards to leading edge rigidity, and this year it has been even further refined, culminating in an ultra-rigid frame and also refined profile. Combined with a pretensioned canopy, this gives a crisp high performing product that maintains its performance through a wider range of conditions.

Refined sizing and wingspans allow for more progressive power in the small sizes, while the wingtip shape adjustment helps deflect water during start up, and also allows for deeper profiles to aid in power. The Cabrinha 2 shows Cabrinha's advanced wing profile and puts it all into use in terms of performance and safety into your hands to maximize your time and pleasure.
