Selling my 2010 Honda Civic hybrid 1.3ima
 Car was in my possession from spring 2019, so it's 3,5 year. I'm the 4th owner. Made 100 000km without problems! I bought it at 215 000 and now it's 322 000 on the clock. And I believe it have many kilometers more to go.
 Civic have some scratches here and there, front bumper is in medium condition. Rest is rather ok, with some exceptions, but the most important there is no rust. Installed lowering spring, so car is 3,5 cm lower than stock.
 What was done
 2020:
 V-belt, spark plugs, coolant, tyres
 2022:
 Springs, shocks, top mounts, cv joint, 12v battery
 This year I also installed hybrid battery (refurbished, worth 720€, have paper for it). Gas usage went from 6.2l per 100km to 5.5l with my driving, but 5.2l is completely possible!
 I changed oil every 10k km (Liqui Molly 5w-40), gearbox fluid every 30k km (always Honda legit CVT oil), air filter, interior filter, airco is cold, refilled this year. White interior lights, rear view camera, sensors, radio with gps and Bluetooth. Interior have some holes nothing too bad. In general car is in decent condition.
 Price I'd let it go is 4000€, or Im searching for some nice station wagon car, just write me what you have and maybe we can exchange. Selling because I need bigger, family car (wagon, SUV, terrain)
