Apple MacOS X Catalina Bootable Installatie USB Stick

Metalen uitvoering dus super stevig

Met deze USB-stick heb je een bootable installatieprogramma van MacOS Catalina. Een herinstallatie of schone installatie uitvoeren is zo gepiept met deze USB-stick.

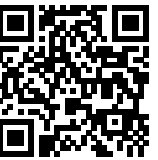

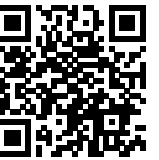

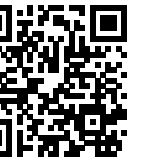

Plug-and-play:

Werkt heel makkelijk in 3 stappen, zorg dat de hdd/ssd geformatteerd is, daarna:

1. Steek de USB stick in de Macbook
2. Doe de Macbook aan en houdt de alt/option knop in gedrukt
3. Selecteer de USB stick en het installatie programma start op.

Catalina Werkt Op Deze Modellen:

MacBook (begin 2015 of nieuwer)  
 MacBook Air (midden 2012 of nieuwer)  
 MacBook Pro (midden 2012 of nieuwer)  
 Mac mini (eind 2012 of nieuwer)  
 iMac (eind 2012 of nieuwer)

|                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |
