Brandnew! Used 5 hours in total.

With the Iiyama G-Master GB3271QSU-B1 32 inches QHD monitor, you can experience smooth images, even in the most demanding scenes. The combination of a 165Hz refresh rate and 1 millisecond response time makes the monitor suitable for professional gaming in the most competitive shooters and racing games. Take an advantage over your opponents in dark rooms with the Black Tuner technology. This allows you to adjust the brightness and dark tones for better sight in the darkest dungeons, like Doom Eternal for example. Do you have an AMD video card? FreeSync Premium synchronizes the monitor with your video card to prevent stutters during the game. In addition, you can easily create a comfortable and ergonomic posture thanks to the adjustability of the monitor. You can adjust the monitor in height, or tilt it for the ideal posture during a long gaming.
