Used working condition

The new SilverStor DTU-EXTN is a 5-slot PC 2.0 bus extender in beautiful lightweight, all- aluminum desktop tower enclosure

it features an internal 1200W power supply, hot-swappable 120mm cooling modules, and five double spaced (1.8" spacing) PCex16 full-length, full-height expansion slots (electrically) which may all be populated with any compatible Ple peripheral devices. There's sufficient space between slots to install "double wide" cards such as powerful GPUs and video cards having BNC connector brackets

With enough power and cooling to handle even the highest performance graphics cards, the DT4U is whique among desktop products

The new SilverStor product comes supplied with an x16 PCIe host cable adapter (occupies one x16 PC 20 or 30 slot in the host computing sytem) and external x16 PCIe cable, and has integrated carrying handles for easy transport
