1/1 in de EU, 1st gen Honda Odyssey V6 Prestige

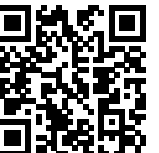

-- ENGLISH BELOW --

Deze japans geïmporteerde Honda Odyssey is in uniek goede staat met bijzonder lage km-stand. Mechanisch helemaal perfect en roestvrij. De distributieriem is nog geen 5.000km geleden verwisseld en bij inspectie was het hele blok nog in perfecte staat. De 3 liter V6 loopt heerlijk stil maar trekt flink door dankzij VTEC.

Momenteel is dit de enige eerste generatie Honda Odyssey V6 in de EU, geïmporteed met behulp van FDT Sportscars nu op (18.2) NL kenteken.

De auto is voorzien van Airlift luchtverring custom op maat gemaakt door StreetCustoms. Daarnaast is de auto voorzien van 18" SSR Vienna velgen wederom geïmporteed uit Japan. Door de luchtvering behoudt de auto het praktische aspect en ik hem ook met plezier dagelijks gereden. Naast deze opties is de auto helemaal origineel met de mooie Prestige-bodykit die deze modellen van de fabriek af hadden.

Daarnaast is de auto uitermate luxe uitgerust met aparte climate control voor de achterste rijen aan stoelen. Zo kan je 7 man kwijt in de auto maar wanneer alles ingeklapt is heb je vrijwel onbeperkt ruimte om spullen in te laden.

Currently this is the only first generation Honda Odyssey V6 in the EU, imported by FDT Sportscars now on Dutch licenseplates.

The car is equipped with Airlift air suspension custom made by StreetCustoms. In addition, the car is equipped with 18" SSR Vienna rims, again imported from Japan. Due to the air suspension, the car retains the practical aspect and I also enjoyed driving it daily. In addition to these options, the car is completely original with the beautiful Prestige body kit that this model had from the factory.

In addition, the car is extremely luxuriously equipped with separate climate control for the rear rows of seats. So you can fit 7 people in the car, but when everything is folded you have almost unlimited space to load things.

I have enjoyed driving the car and taking it to shows. But now that I'm going to work almost 100% from home, such a big car is no longer necessary for me. If you would like more photos or have any questions, please don't hesitate to contact me via 06-27119004 or my instagram: ruben.ody
