Stemassistenten hebben vaak precieze frases nodig om specifieke taken uit te voeren, en als de taal eenmaal afwijkt, mislukt de operatie. Met TouchAI kun je AI-intelligente stemassistent regelen om te bereiken wat je wilt doen als je alleen maar korte woorden rechtstreeks zegt. Zelfs in de lawaaierige omgeving van de auto of met muziek kan het gemakkelijk en soepel de relevante operaties voltooien.
