Watch movies, edit photos, and create digital designs for work with the AOC U2790PQU. This 27-inch monitor has a 4K resolution, which shows content down to the smallest details. Thanks to the 100% support for the sRGB color profile and 10-bit color output, the screen displays colors faithfully. The IPS panel ensures that the colors don't fade when you look at the screen from a sharp angle. Adjust the U2790PQU to your ideal working position by adjusting the height or tilting the screen. The border around the screen is virtually invisible, so you can work comfortably with multiple monitors next to each other. You can connect peripherals, such as a mouse or USB stick, via the built-in USB.
