

Bluever Hello X2

Locatie Noord-Holland, Heemstede

https://www.advertentiex.nl/x-1445747-z

Turns your computer monitor into a touch screen. Just attach scanner to corner of your monitor, download software and calibrate.

Connected with usb to computer.

Only downside: doesn't work well with widescreen monitors (which I now have, hence the sale) :-)

In original box including manual and usb cable. https://www.thebluever/
