Bought in 2019, the Razer Blade 15 Advanced, code RZ09-0288.

Battery was replaced new in 2022, the previous one started swelling; Windows 11 Home comes installed with its OEM license; The keyboard layout is UK, and so is the charging plug. For the charging plug there's an adapter that I will include in; The disk installed is 1TB Samsung SSD 970 EVO Plus; All boxes and accessories included; The only visible wear (besides the normal keyboard wear) is the cable that connects the screen to the motherboard but so far it has not given me any issues (see picture).
