I bought it 2 months ago, rarely used. As good as new, comes with an extra cover and charger.

Specifications:

Kindle Paperwhite: Now with a 6.8-inch display and thinner bezels, adjustable warm light, up to 10 weeks of battery life and 20% faster page turning than the previous generation. Purpose-built for reading: with a flush-front design and 300 ppi glare-free display that reads like real paper, even in bright sunlight. More books in more places: store thousands of titles, then take them all with you. A single charge via USB-C last weeks, not hours. Easy on the eyes: now with adjustable warm light to change screen shade from white to amber. Waterproof (IPX8), so you're free to read and relax at the beach, by the pool or in the bath. Your Kindle has been tested to withstand accidental.
