

# Wegman Bluetooth FM transmitter (5 EUR)

Locatie **Utrecht, Utrecht**  
<https://www.advertentiax.nl/x-1456869-z>

Te koop: FM transmitter om bluetooth signaal van een smartphone om te zetten in FM-frequentie. Hiermee wordt het mogelijk om vanaf je telefoon muziek af te spelen op oudere autoradio's die geen bluetooth hebben.

Reden van verkoop is het inbouwen van een autoradio die wel bluetooth heeft, waarmee deze transmitter niet meer nodig is.

Conditie is prima, de transmitter gaf in mijn auto een zachte ruis, maar dat ligt naar alle waarschijnlijkheid aan de auto en niet aan de transmitter (niet in een andere auto getest).

Nieuwprijs rond €24.

|                                                                                                                                                                                                                                |                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                   |
