

# Avaya IP500 V2 Control Unit zonder voeding

Locatie **Drenthe, Veenoord**  
<https://www.advertentiax.nl/x-1459598-z>

De basis van elk IP Office-systeem is de besturingseenheid. Het slaat de systeemconfiguratie op en regelt de werking van het systeem. De IP500 V2-regeleenheid heeft vier sleuven aan de voorkant voor IP500-basiskaarten. Het heeft een interne voedingseenheid en maakt gebruik van een verplichte SD-kaart van het systeem. Het bevat een 2-poorts Ethernet LAN-switch (laag 3 beheerd) aan de achterkant. Het ondersteunt IP Office R6.0 of hoger, evenals IP Office Basic Edition, Essential Edition, Preferred Edition, Advanced Edition, Partner en Norstar Edition.

De unit heeft geen voeding.

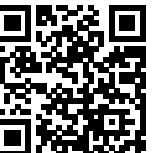

Avaya IP500 V2 Control Unit specifications:

Supports a combination of 384 Analog, Digital & IP phones

Supports up to 12 Expansion Modules

Supports up to 8 T1/PRI/E1 Connections

4 card slots compatible with existing IP500 cards as well as new IP500V2 Cards

|                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                  |
