Selling my 2018 15-inch Macbook Pro (i7), since I bought a new MacBook.

Specs:  
 -2,8 Ghz 6-Core Intel Core i7-8850H  
 -16 GB 2400 MHz DDR4  
 -Intel UHD Graphics 630 1536MB  
 -1 TB SSD  
 -US QWERTY keyboard

Recently serviced (completely new bottom chassis/keyboard/battery via official Apple store). Looks/works like new, barely noticeable dent on the top right corner and barely noticeable scruffs on the chassis. Super smooth OS and performance for both everyday tasks and creative media work. Amazing display and speakers. Use it (vertically) docked with a monitor for a super minimal MacOS desk setup.

Comes with original packaging and charger/cable.

To be picked up/paid with cash in Enschede. I'll also offer a free high-quality Mujjo laptop sleeve to go with it (original price 75,- euros, see).
