Bought brand new from the UK, I still have the box back at home (in May I will bring the box to the Netherlands) along with the UK charger.
 Glass screen protector since day one, not a single scratch on the ipad. Always used with the folio cover.
 256 gb, 4 speakers, 2k 120hz ProMotion display, usb c, etc.
 It also comes with an off-brand pencil, that is identical to the original one with 2 exceptions: no magnetic charging and no pressure sensitivity. (It cost 60 eur)
 No couriers/sending, only personally in Utrecht centre/leidsche rijen/lombok.

I can send pictures with the original box (has the same serial number as the ipad) and it comes with an original type c cable

We can negotiate a bit on the.
