Functie-eisen

A bachelor degree in a technical relevant field (i.e. naval architecture, mechanical engineering or another relevant technical study) or a secondary vocational technical education with extensive experience in cost estimation. Experience in budgeting and planning in capital goods. Having experience in the shipbuilding industry is considered a plus. Up-to-date awareness of sector trends and activities, covering not only calculation, but the wider ship building industry is considered a plus. Good command of the Dutch and English language (written and verbal). Open to travel long distances and work abroad.

Arbeidsvoorwaarden

Longterm possibilities and intention for permanent contract.
