4x Mars Hydro FC E6500 730w

High-Efficiency LED Grow Light – FC-E6500 grow light features quality BridgeLux Diodes to achieve market-leading 2.8 $\mu\text{mol/J}$ of efficacy and a max yield of 2.5 grams per watt. It consumes 730 watts with a 30% higher average PPFD than other same-wattage grow lights, providing better crop quality and more cost-effectiveness, and dropping 50% in electricity bill than HID/HPS lights! *Best fit for 150x150cm grow tent, vertical farming, commercial rolling table setting, and commercial indoor grow rooms. Full Spectrum Grow Lighting – With a Yield Max spectrum (660-665nm, 2800k-3000k, 4800-5000k) that falls mainly in the PAR (400-700nm) range, FC-E6500 LED grow light activates the Photosynthesis and provides sufficient light for plants to grow stronger and.
