

Ocean Rodeo Flite 17m licht weer kite inclusief bar (950 EUR)

Locatie **Noord-Brabant, Valkenswaard**
<https://www.advertentiax.nl/x-1485915-z>

Ik verkoop mijn Ocean Rodeo FLite 17m uit 2017. Deze is in uitstekende staat. Het is de 5e generatie high performance lichtweer kite van Ocean Rodeo. Deze is speciaal ontworpen om toch te kunnen varen op dagen met weinig wind en heeft bij mij vele sessies met lichte wind gered. Ideale kite dus voor de dagen met lichte tot zeer lichte wind, of om mee te foilen (heb ik niet gedaan). Inclusief Ozone bar met zgan lijnen van Infexxion en line extensions om nog meer low-end uit de kite te halen.

Kan bezichtigd worden in omgeving Eindhoven of in de buurt van een kitespot, bij voorkeur in Zeeland.

5th Generation Gen 5 Ocean Rodeo Flite - Ultra High Performance, Light Wind Kite

First on, last off. Designed around a grin-inducing three strut frame, the Gen5 Ocean Rodeo Flite is a brand new super-light kite that will turn those lightwind days into amazing sessions. even lighter than its prior versions with an agility and lightness of touch unequaled in its class. Ocean Rodeo has taken Light Wind performance to the next level with the Generation 5 Flite and Ocean Rodeo is beyond confident that the Flite is the world's best light wind kite -and proving it one rider at a time.

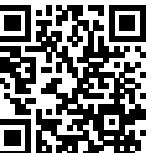

? Direct Depower - Unmatched Safety:

The Direct De-power System allows for near total depower of your kite and easy, on water reset and

relaunch in the event of an eject. Ideal for riders of all levels, beginner to pro.

Ultra-Lite Construction - Unmatched Weight Reduction with Top Performance & Durability: State of the art fabrics and components, purposefully arranged to deliver an ultra-lite yet rugged build.

? Buck Stitching - Industry Leading Ultra Rugged Stitching: This three stage zig-zag stitch distributes seam load creating a tear resistant, long lasting seam.

? Abrasion Guard:

Tough, light and UV stable, the finest abrasion resistant material we've ever used.

? Trim Equalizer:

Keeps your line lengths the same if you adjust between the fast and faster turn speed settings with your back lines.

? Variable Line Length:

Tailor your kite's performance to match your riding goals and style. Longer lines generate more power while shorter lines increase speed and response. Ultra short lines provide immediate rider feedback to the kite and a direct snappy feel.

? Unmatched Quality - Top Quality Components and Bomb Proof Construction: Unmatched quality in construction and materials, designed to offer top performance & reliability, plus stand the test of time & real world.
