Opel Corsa 1.3 Cdti 70KW 5D 2011 Red How does it feel to own this car? Check out the detailed features (down in the description) to see why I love it. This car will surprise you. I bought it for 6600 Euro. This car has proven to be very reliable. It is a really comfortable and EXTREMELY ECONOMICAL car but yet has a sportive look and feel and is full of features and additions. It has been a supercar which I fully enjoyed. Safety for me is important and I can tell you that this car is super safe. With so many extras and additions, it gives you the feeling that you are driving a more expensive car. It's great for long distances as well as for short rides. It will serve you with pleasure. P.s. for music lovers, it has a really nice sound system.
