

## Fullscreen Carplay Porsche PCM4.1 PCM5 (250 EUR)

Locatie **Noord-Brabant, Budel-Schoot**  
<https://www.advertentiax.nl/x-1492089-z>

Heeft u een Porsche met breedbeeld navigatie maar met enkel de smalle Carplay functie , dan kunnen we hier fullscreen Carplay van maken zoals op foto 1

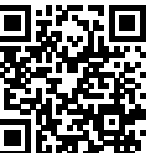

Ook installeren we Carplay en android auto op de Porsche PCM4 en PCM4.1 systemen , dus geen gekke chinese kastjes die erbij gezet worden maar origineel geïnstalleerd op de Porsche PCM

Bekijk uw huidige versie informatie eens om te kijken of uw wagen voorbereid is op App Connect / Smartphone interface, onderstaande versies zijn geen enkel probleem

MHI2\_ER\_POG11\_XXXXX\_XXXXX  
 MHI2\_ER\_POG16\_XXXXX\_XXXXX  
 MHI2\_ER\_POG24\_XXXXX\_XXXXX  
 MHI2\_ER\_POG35\_XXXXX\_XXXXX

Bij Porsche PCM 4 PCM4.1 en PCM5 kunt u de versie uit het menu halen of ons een Chassisnummer sturen of evt foto's van het systeem

Installatie duurt tussen 1 en 2 uur , we halen niks uit de wagen , plaatsen er niks bij enkel aanpassing / installatie van Smartphone interface Software zoals bij de dealer bedrijven ook gebeurd , zelfs op wagens

|                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |
