---

computer voor 3d printen.

Deze tablet draait op android KitKat 4.4.2 wat tegenwoordig de meeste apps niet meer ondersteund. Als je zelf handig bent, kan je de android versie updaten daar zijn hele beschrijvingen voor te vinden op internet. Waarmee je de originele camera's met bijbehorende software weer werkend krijgt.

Unieke tablet nergens meer verkrijgbaar nieuw in doos unsealed. Dus ben je een hobbyist of verzamel je objecten. Dit is een collectors item.

Ik heb foto's erbij van mijn eigen tablet zodat je kan zien hoe het in de doos eruitziet, de ander is nog.
