Kentekken 14-MK-NG

Honda New Concept Street version with 750cc 2-cilinder engine with ABS. Great motorbike which is nice to ride for beginners as well as experienced riders will have fun driving it.

Motorbike is on sale because of leaving the country for the season for the sea trip. This bike has big storage you can use for anything as big as helmet. Helmet fits perfect, ideal if you want to walk but don't want to carry helm in your hands. Chain along with other things has been replaced about 2500km ago, so should be good to ride another 7500km.

Tires are in order.

Break pads and break fluid were changed recently.

Front fork was checked for leakage and replaced some parts, so everything is perfect now.

After winter accumulation was replaced for a new one. Bike is ready to be picked up and immediately ride.

The motorbike has sidecars pads, so if you ever decide to lean it down or drop the bike won't be damaged. If you have any questions don't hesitate to ask.

BTW, this bike is the best in my opinion in category, comparing to Kawasaki Versys 650, Yamaha MT07
