Sorry for not writing in Netherlands.

New Fusion Sailboat. We bought it in September 2021. Due to health reason I was not able to sail it after we puchased it. It has not seen the water once.

Very complete with 2 covers, slip trailer main sail, jib and everything you need to start the season.

The boot is nearby at Leekstermeer in Drenthe 8km away from Groningen.

The Fusion is so easy to handle and sail, just right to put it on the roof of a car or in a Sprinter or anything similar.

All information and videos at www.fusionsailboat.nl. Just give us a call and we will arrange something for looking at this wonderfull little.
